

414 LAKE AVENUE  
BALTIMORE 12, MARYLAND

Dear Mr. Gelt -

My vote would be 5 and  
5 to Philip Lerner & Alexander Wiener,  
for the development of knowledge of  
the Rh factor. It is excellent work of  
proven worth.

The public clamors so greatly  
for a cure for cancer that I fear that  
the award to Dr. Huggins may lead  
to many disappointments, if his work

414 LAKE AVENUE  
BALTIMORE 12, MARYLAND

passes the test of time & is seen in  
its time proportions he would be  
willingly apreciating the award another  
year.

Dr. Avery's contribution is fine  
<sup>not</sup> but representing outstanding recent  
research in the medical field as that  
of Levine & Wiener. My initial  
vote as almost cast for them.

At most all replies are strictly  
confidential.

Very sincerely yours  
Peter B Tausig
